
Representative chemotaxis simulation ($N = 800$)
Mean distance to nutrient centre
$R_c(t)$
time t
Aggregation index
$A(t)$
time t
KL divergence to nutrient profile
$D_{KL}(n \| \rho)$
time t
random walk
memory chemotaxis
chemotaxis + repulsion
chemotaxis + short + long
final: memory chemotaxis
final: chemotaxis + repulsion
final: chemotaxis + short + long
